

technical data type IDL

With tunable white technology and HCL

Body:

White painted metal.

Recessed: for opening 600 or 625 mm.

3 versions: 1, 2 or 3 LEDlines. 60 or 90° optical lenses.

Optic:

Symetric linear PMMA lenses. Z60 - narrow beam 60°

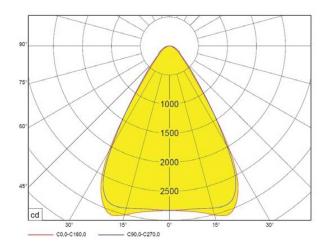

Z90 - wide beam 90°

Application:

Recessed installation into modular ceiling (square).

mod 600: 596 x 596 x 30 mm. mod 625: 622 x 622 x 30 mm.

Options: White painted frames for recessed gypsum plasterboard or surface installation.

Electrical specifications:

- Product life min 80.000 h L80 B50
- Available in 3000K, 4000K and 5700K and tunable white.
- CRI of min. 80.
- Macadam: < 3 SDCM
- Main part is PMMA plastic optical system, which takes care of perfect lighting distribution and high effectivity. (up to 163 lm/W from luminaire).
- UGR 19 for types1 and 2; UGR 17 for type 3.

Optional: DALI or wireless bluetooth control.
